

Grand Island Public Schools
MEDICAL TERMINOLOGY

Course Length: One semester

Grade Levels: 10, 11, 12

Prerequisite Courses: Biology

Course Description:

This course helps students identify, spell, define, and understand medical terms related to the diagnoses, pathology, and treatment of the major body systems.

Medical Terminology Course Standards

As a result of their participation in this course, students will:

- Understand the meaning of various word parts.
- Develop an understanding of medical terms as studied in a systems approach to studying the human body.
- Encourage students to view each patient as a person rather than a disease.
- Explore potential career options in a healthcare occupation.
- Participate in a job shadow of a healthcare occupation.
